Tread Depth and Tire Pressure Gauge

TPG100

TPG100 is an easy to use, entry level Tread Depth and Tire Pressure Gauge. Along with its basic function, it includes high-tech capabilities. It features a built-in LED flashlight and includes 2 CR2032 batteries. It’s wireless Bluetooth and comes with a free Bartec USA BT Tire Gauge phone app. Using the smart phone’s camera, you can scan VINS with the app to find default placard pressure and tread depth. The app uses a standard color-coded system to display the status of the tire.

Features
- Tire Pressure Measuring
- Tire Pressure Measurement range 3psi – 150psi
- Tread Depth Measuring
- Wireless Bluetooth with free software application
- LED display and LED flashlight
- Measures tread up to 1" depth

Benefits
- C.A.R.B. compliant accuracy of ±2 PSI
- Works with the full range of passenger car and light truck applications
- Measures tread depth within ±2mm
- Works on most passenger cars and light trucks
- Easy to read, even in daylight
- Can work in low light conditions
- Works with PC’s as well as Smart Phones
