Removed Steelman Select Sensor	No longer supported due to lack of demand	✓	✓	✓	✓	✓	✓	✓	✓

NOTE: Bartec USA remains committed to maintaining sensor coverage on major aftermarket sensors.

Multiple Software Types

To better manage the available aftermarket sensor coverage, this release will have multiple software types for the Tech400SD, 500, and PRO-SERIES tools. This multi-software approach will keep your Bartec tools up to date with the major aftermarket sensor suppliers, and with the Tech400SD being extend through 2021 [with an active software license], you will be able to use the tools longer!

Tech450Pro/Tech600Pro/TechRITEPro: Required Software Type – Based on Sensors in use at your store/company

McLaren	Mini	Mitsubishi	Nissan	RAM	Toyota
Volvo					

Tool Software Update

Extended Toyota DTC Coverage:

DTC functionality has been added for Toyota vehicles to further improve the ability to diagnose any trouble codes a Toyota may have. The user will be able to do a OBD Diagnostics and View DTCs to complete this process.

Copy IDs from Stored Data:

Using this feature on the TechRITEPro, Tech450Pro and Tech600Pro the user can program sensors using the sensor IDs stored in the ECU.

REDI Sensor Unlock:

The updated REDI-Sensor unlock in the Tool Kit allows the user to unlock the REDI 10006 using the V6 selection. The REDI 10006 Sensor is a preprogrammed TPMS Sensor that needs to be “unlocked” to be installed on a vehicle. For more information please view: http://www.tpmstopgun.com/dl_file.php?f=165.

Removed Steelman Select:

Due to the lack of demand, Steelman Select programmable sensors will no longer be supported on Bartec USA TPMS tools.
