

BARTEC TOOL FEATURE SPOTLIGHT

FEATURE: OBDII Relearn for Suzuki Vehicles

BENEFIT: Techs can now complete these relearns

FIRST AVAILABLE: Software update 52 [December 2014]

WHAT TOOLS: Tech500, Tech400SD, and Tech400+

WHAT'S NEEDED: Simply update your tool

Tech500 connected to OBDII port on a Suzuki SX-4

Industry first OBD RELEARN and DIAGNOSTICS coverage, the OBDII Assisted Relearn allows you to use your 400SD or 500 All-in-One TPMS tool to Relearn TPM sensor ID'S without the hassle of the over complicated factory stationary relearn process. Additionally you can access the existing sensor IDS and Diagnostic Trouble Codes to be able to complete TPMS Diagnostics.

NOTE: This relearn process requires a second activation tool, and must be completed in less than 90 seconds

BEST PRACTICE - COMPLETING TPMS RELEARNS THROUGH THE OBDII WHENEVER POSSIBLE LIMITS CONFUSION, IS FASTER AND REDUCES THE NUMBER OF STEPS INVOLVED. BARTEC IS ON A MISSION TO HAVE AS MANY OBDII RELEARNS AS POSSIBLE.
