

BARTEC TOOL FEATURE SPOTLIGHT

FEATURE: OBDII Relearn for Volvo Vehicles
BENEFIT: Complete the relearn FASTER and more accurately
FIRST AVAILABLE: Software update 49
WHAT TOOLS: Tech500, Tech400SD, and Tech400+
WHAT'S NEEDED: Simply update your tool

Industry first OBD RELEARN and DIAGNOSTICS coverage, for Volvo AUTO LEARN vehicles. As you know, sometimes AUTO learning vehicles take a while to reset. Or you have to let the customer go with a MIL hoping it will go off.

With these Bartec TPMS Tools, now you can complete the relearn through the OBDII connection. This is much faster, accurate, and you do NOT HAVE TO DRIVE the vehicle. Additionally you can access the existing sensor IDS and Diagnostic Trouble Codes to be able to complete TPMS Diagnostics.

BEST PRACTICE - COMPLETING TPMS RELEARNS THROUGH THE OBDII WHENEVER POSSIBLE LIMITS CONFUSION, IS FASTER AND REDUCES THE NUMBER OF STEPS INVOLVED. BARTEC IS ON A MISSION TO HAVE AS MANY OBDII RELEARNS AS POSSIBLE.
