TPMS Desktop Audit Report - 4050014 2:50:41 PM

Tool:	Tech400SD	Test Performed By:	Jimmy Cross
Version:	51.0	Owner's Name:	John McCane
Serial Number:	732111	License Plate Number:	NYG 753
Make:	Chrysler	Make:	0000
Model:	330	Model and Year:	
Year:	2010	Comments:	
VIN:	2C3CASCVAH12515		
Qualifier:	00006C		
State:	TBYT

Note: Battery value or state displayed is a direct output from the sensor and is not an interpretation on the part of Bartec.  
 The TPMS information is provided as-is and Bartec does not warrant, implied or otherwise, the accuracy or reliability of the information or your use of it, with the expressed limitation of liability.  
 LIMITATION OF LIABILITY: BARTEC, AUTO-EDITS OR BARTEC, OR LSC, SHALL NOT BE LIABLE FOR ANY LOSS OF PROFITS, LOSS OF USE, LOSS OF DATA, INTERRUPTION OF BUSINESS, TORT OR OTHERWISE, DAMAGES, INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY KIND, WHETHER UNDER THIS AGREEMENT OR OTHERWISE.

Bartec was the very first to create the TPMS audit report! Way back in 2006 with the creation of the Tech300, Bartec invented the TPMS Audit Report. In these early days we were able to provide sensor information like battery state, sensor ID's, pressure and temperature.

Of course as our tool's capabilities increased, so did the information contained on the TPMS Audit Report. Now, with the Tech400Pro for instance, the TPMS Audit Report includes the VIN, Tool Info, Sensor ID's by position as read and in the BCM, part numbers, sensor state, Placard Values [before and after] and Diagnostic Trouble Codes [DTC's].

**BEST PRACTICE - When doing TEST BEFORE TOUCH, print the BEFORE TPMS Audit Report. This is an effective communication tool when explaining to a customer their vehicle's condition. When the repair is complete, print the AFTER TPMS Audit Report and show evidence of their TPMS being operative.**
