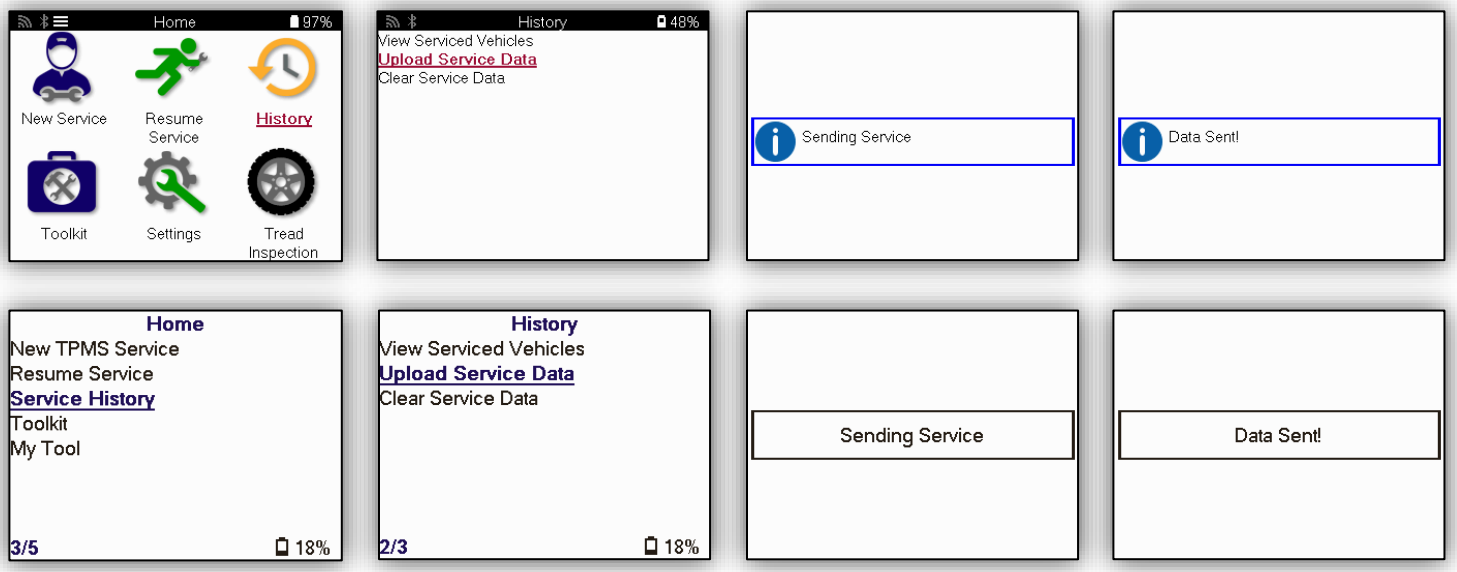
TSB #	SUBJECT	DATE
GI202601-68	Uploading Service Data	1/21/2026

Overview:

This bulletin will guide the user through the process of uploading service data to TPMS desktop® or Bartec 365® enabling them to view or print comprehensive service reports.

Process:

1. Select **History/Service History**
2. Select **Upload Service Data**
3. Tool will begin uploading
4. Tool will notify the user once service data has been successfully uploaded



Note: Follow information below if you receive either one of these error messages

Connection failed Retry Cancel	Failed to connect.
Please connect to WiFi or TPMS Desktop under settings to send data!	Please connect to WiFi or TPMS Desktop under settings to send data!

This screen will be displayed when the tool cannot connect to Wi-Fi or TPMS desktop. Please ensure you are close to your Wi-Fi router or PC with TPMS desktop. Also ensure that the Wi-Fi is properly configured on your tool and/or Bluetooth is enabled on your PC.

This screen will be displayed when the tool is not correctly configured for Wi-Fi or TPMS desktop. Please follow the necessary steps to connect your tool to Wi-Fi or TPMS Desktop. To configure Wi-Fi please refer to TSB GI202510-43 or GI202510-44. To configure TPMS Desktop please refer to the tool User Guide.
